

I know this may make me sound old but I have been in one part of the Real Estate business or another ever since I got out of the Marine Corps 48 years ago. I started as a loan rep then to new home sales and on to owning my own Real Estate office. I went back to new home sales then to new home sales management and finally came back to residential resales and joined this Board of Realtors 23 years ago. It's been good and it's been bad but along the way I've learned a lot and gained a wealth of experience. I've also met a lot of great people that have become good friends.

I enjoy giving back too. I volunteer at 2nd Chances Rescue in Norco. We rescue dogs from shelters or wherever they might need to be rescued from. You may have seen me walking up and down Hamner or 6th Street being dragged along by an energetic Pit Bull. It's great exercise for them and for me.

I've also given back to this Board of Realtors by serving on various committees and previously was elected to the Board of Directors where I served a 2 year term. I would be proud to serve you again and would be honored to receive your vote for Board of Directors.

Jack Fick
