

John Valdez

I have had the satisfaction and pride in being a Realtor since 1999. As a former top producing agent in Real Estate I have successfully demonstrated the ability of being a top producer, to now being able to give back and come from contribution. Real Estate has truly been a natural progression with my prior experience in customer service with UPS. From delivering packages, to my dedication in delivering clients dream homes, as well as getting homes sold through all economic times and challenges there is nothing that slows me down. Communication is essential and knowledge is power in all aspects within the Real Estate Industry. With this being said, I know that now is the time and a key contributing factor in my giving back to TIGAR as well as the local real estate community. My loyalty, perseverance and belief in TIGAR is my driven commitment for this opportunity within our Association.

- Member of LGR, Local Government Relations committee for TIGAR
